R. K College, Madhubani

ASSIGNMENT(1 and 2), FEB 2023

Subject : Stastics-1
Subject Code : GE-3
Semester: 3rd (BCA 2021-2024)

Q1. Age of students are given below:

Age group(x)	No. of students(frequency, f)
19-29	4
29-39	9
39-49	3
49-59	3
59-69	1

Find following:
(a) Relative frequency , cumulative frequency and cumulative relative frequency.
(b) Mean,Median,Mode.

Q2. Consider marks obtained by BCA students are given: 6,7, 9, 1, 6.
Find following :
(a).Mean (b) Median (c)Mode(d)Range(e)Sample variance
(f) Sample standard deviation(g) Mean Deviation(h)quartiles
(i) quartile deviation (j)inter quartile range(k)Pearson's median skewness.

Q3. Find the Regression Coefficients and Regression Line for the following data:

Age(x)	Glucose Level(y)
43	99
21	65
25	79
42	75
57	87
59	81

Q4.For the Frequency Distribution m4 = 7130.62(md)^4
m2=45.393(md)^2
Find Kurtosis and Identify the distribution.

Note: Assignment 3 Questions (with solutions) will give tomorrow.
Last date of submit assignment is: 25.02.2023.
